

Our Core Values

S = special - we treat each child as a unique individual and value their journey, experiences, character and personalities.

P = passionate - we recruit and develop staff that have a passion for excellence, teamwork and growth.

R = responsibility - at all levels within our organisation we take responsibility for our own behaviour and the choices we make and hold each other accountable for poor practice and decision making. We are committed to a culture of growth and learning, rather than blame and 'passing the buck'.

I = integrity - we work as a staff team to support our children, their families and professionals, with the highest levels of transparency, honesty and integrity.

N = nurture - we believe that every child in our care should feel nurtured and loved.

G = growth - we are committed to supporting our children to become strong, capable, independent adults.
